Docket No. 98N-1265

Food and Drug Administration

I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS: The compounded medications that have been prescribed and recommended for me have helped to alleviate symptoms of anxiety, depression and sleepiness - to name a few. While I am able to obtain one of them in-state it's quality is poor and not useful. Madison Pharmacy of Madison, Wisconsin makes the best quality of compounded medications I've been able to find anywhere. Please do not limit my right and ability to seek and obtain what is best for me.
